

Forced Entry Protection Blind

Forced Entry Protection Blind

The Forced Entry Protection Blind (FEP Blind) is an aesthetically acceptable internal grill which not only gives high level protection against forced entry but are a direct replacement for traditional sun blinds.

Designed to harmonise with both home and office environments, the FEP Blind will give you the protection you need without creating a "prison" like environment.

Proven security

The FEP Blinds have been independently tested by BRE under the LPS1175 issue 8 standard and have achieved a D5 rating.

Peace of Mind

While the FEP blinds have been designed and tested for use in high security environments, they are also ideal for securing remote, isolated or out of view windows giving peace of mind to building occupants and protecting assets.

Our team can provide pre-order surveys, installation and ongoing maintenance checks to ensure that the product is suitable and ongoing protection.

PHYSICAL DIMENSIONS

STANDARD HEIGHT	1,700mm (other heights are available)
